**Subject:** Early Action Schedule

I understand that Ella Filippone is out of the office for a little while - unfortunately, I can't seem find your telephone number. If you could give me a call, I would appreciate it. I would like to talk to you about the Early Action schedule: we have experienced a delay in the schedule, so that we can do a little more modeling work to support the future projections produced by the Empirical Mass Balance. This means that the National Remedy Review Board meeting will be postponed until the Spring. Then the Proposed Plan will be out for public review in June.

I'm sorry that I could not get word out to you before you submitted your 10-page write-up for the Remedy Review Board. Since we expect the Board to meet again in the Spring, your write-up will not be wasted.

Please call me at 212-637-4427, if you would like more explanation on the schedule.
